

RNA Therapy Factory-School

Introduction to RNA/mRNA Biomanufacturing

Quickly strengthen your skills and build your organization's capabilities through CASTL's RNA/mRNA biomanufacturing training program, set to launch later in 2025.

Available Modules:

- ✓ **Core Competency 1:**
Introduction to the Fundamentals of mRNA Manufacturing
- ✓ **Core Competency 2:**
Cleanroom Operations

- ✓ **mRNA Production:**
Upstream Process
- ✓ **mRNA Production:**
Downstream Process
- ✓ **mRNA Production:**
Encapsulation, Fill, and Finish

Why Choose CASTL?

- **Hands-on, specialized training:** Master cutting-edge RNA/mRNA techniques through realistic biomanufacturing scenarios.
- **Industry-experienced instructors:** Learn from trainers with strong backgrounds in the sector.
- **State-of-the-art, GMP-simulated training facilities:** Familiarize yourself with equipment used in real production environments.
